Software developer looking for full-stack roles. I am someone with a curiosity to learn and improve in any endeavor. I am a hard working, problem solver with a strong knowledge of data structures, algorithms and object oriented programming.

PROJECTS

Zovy — *80's & 90's Streaming Platform*

https://zovy-three.vercel.app/

- Created a full-stack application that showcases my favorite 80's & 90's movies and tv shows. Similar to a Netflix clone.

- Built with React, React Router, Tailwind and Firebase.

SmartBrain — *Face Detection App*

https://kane-smart-brain.herokuapp.com/

- Created a full-stack application to detect faces based on user imputed images.

- Built with React, Node.JS, Express.JS, PostgreSQL and the Clarifai API.
